

AVINASHWAR SHARMA

Assistant Professor | AI & Machine Learning Specialist | Researcher
+91 7906299665 | avinashwarsharma@gmail.com | Noida, Uttar Pradesh, India

PROFESSIONAL SUMMARY

Experienced Assistant Professor and Computer Science professional with expertise in Artificial Intelligence, Machine Learning, Generative AI, Data Science, Quantum Computing, Python Programming, and Software Engineering. Proven experience in higher education, research, and industry. Skilled in curriculum development, Outcome-Based Education (OBE), student mentorship, academic administration, research supervision, and AI-driven innovation.

CORE COMPETENCIES

Artificial Intelligence, Machine Learning, Generative AI, LLMs, Data Science, Python, Deep Learning, NLP, Computer Vision, Quantum Computing, Research Methodology, Academic Leadership, Curriculum Development, OBE, NBA & NAAC Documentation, Student Mentorship

PROFESSIONAL EXPERIENCE

ASSISTANT PROFESSOR – Computer Science Engineering
Galgotias University, G.Noida

May 2026 – Present

- Teaching AI, Machine Learning, Python Programming, Data Science, and core Computer Science subjects.
- Developing industry-aligned curriculum, laboratory content, assessments, and project-based learning modules.
- Mentoring undergraduate students in research, innovation, hackathons, and AI-based projects.
- Contributing to accreditation, academic quality assurance, and departmental development initiatives.

TECHNICAL EDUCATOR Computer Science Engineering
Maharishi University of Information Technology (MUIT) Noida June 2024 – May2026

- Deliver courses in Python Programming, C Programming, Android Development, Artificial Intelligence, and emerging technologies.
- Mentored 100+ undergraduate students on software development, AI, ML, and automation projects.
- Developed laboratory manuals, assessment frameworks, question banks, and course content aligned with Outcome-Based Education standards.
- Contributed to NAAC documentation, academic audits, and quality assurance initiatives.
- Participated in Faculty Development Programs focused on Artificial Intelligence, Machine Learning, and innovative teaching methodologies.
- Guided students in research activities, technical competitions, and project-based learning.

QUANTUM COMPUTING RESEARCHER Tech Mahindra, Noida Aug 2023 – June 2024

- Conducted research on quantum algorithms and optimization techniques.
- Developed portfolio optimization models using quantum computing methodologies.
- Worked on quantum error correction and simulation frameworks.
- Contributed to interdisciplinary research involving finance, cryptography, and advanced computing systems.

SOFTWARE ENGINEER – R&D Cadence Design Systems, Noida May 2022 – July 2023

- Developed and enhanced Electronic Design Automation (EDA) solutions.
- Designed optimization algorithms resulting in significant reductions in processing time.
- Improved software reliability through defect analysis and debugging.
- Collaborated with cross-functional engineering teams for product development and deployment.

WEB APPLICATION DEVELOPER DRDO, New Delhi May 2021 – July 2021

- Developed responsive web applications using JavaScript, HTML, and CSS.
- Enhanced application usability and cross-browser compatibility.
- Participated in application design, testing, and deployment activities.

WEB APPLICATION DEVELOPER Ministry of Defence, New Delhi May 2019 – July 2019

- Developed responsive web applications and integrated third-party services.
- Improved user experience through performance optimization and interface enhancements.
- Collaborated with multidisciplinary teams to deliver high-quality software solutions.

EDUCATION

Master of Technology (M.Tech), Computer Science Engineering – Distinction
Amity University, Noida -2022

Bachelor of Technology (B.Tech), Computer Science Engineering
Amity University, Noida -2020

Senior Secondary Education (Class XII), Science Stream (CBSE)
Delhi Public School, Aligarh -2016

PUBLICATIONS

- Sharma, A. (2024). Portfolio Optimization Using Quantum Computing.
- Sharma, A. (2022). Comparative Analysis of Face Mask Detection Model. Springer Nature, Singapore.
- Sharma, A. (2022). Analytical Approach Towards Face Mask Detection Using Artificial Intelligence Techniques. Springer Nature, Singapore.
- Sharma, A. (2021). Video-Based Facial Detection and Recognition Using Artificial Intelligence

Techniques. International Journal of Innovative Technology and Exploring Engineering (IJITEE).

CERTIFICATIONS

- AWS Cloud Certification
- Quantum Computing Professional Certification
- SystemVerilog Design & Verification Certification

ACADEMIC CONTRIBUTIONS

- Judge – University Hackathon and Science Exhibition
- Research Mentor for Undergraduate Projects
- Contributor to Academic Quality Assurance Activities
- Participant in AI, ML, and Emerging Technology Faculty Development Programs

AREAS OF INTEREST

Artificial Intelligence | Machine Learning | Generative AI | Quantum Computing | Data Science | Software Engineering | Research & Innovation | Academic Leadership
